Job offer: Mental Health Counsellor (2 positions)

To support and strengthen Centre for Children in Vulnerable Situations (CCVS)-Uganda's clinical field activities, we are recruiting an experienced Mental Health Counsellor. The Mental Health Counsellor will be providing a range of psychosocial interventions and trainings within CCVS-Uganda's project directed towards enhancing mental health among war-affected individuals, families and communities, supported by the Trust Fund for Victims (ICC).

Background to CCVS-Uganda

CCVS-International, a Belgian interuniversity cooperation, was erected in 2008 to conduct research on support for and wellbeing of formerly abducted children and war-affected children and their communities in Lira District. Three Belgian universities gave form to and took up the direction of this centre: Ghent University, Vrije Universiteit Brussel and the University of Leuven. CCVS-International's activities are structured around three central axes which are closely related to one another: (1) research studying the psychosocial wellbeing of persons living in vulnerable situations in the South; (2) support for persons in vulnerable situations in the South. Two psychosocial support centres have been established, one in Eastern DR Congo (Bunia) (CCVS-DR Congo) and one in Northern Uganda (Lira) (CCVS-Uganda); and (3) dissemination of good practices and scientific knowledge.

Since 2011, the International NGO, Centre for Children in Vulnerable Situations (CCVS)-Uganda has been promoting the mental health and well-being of children, youth, adults, their families and communities living in vulnerable situations in post-conflict Northern Uganda and, more specifically, in Lira District. Currently, we are working in several communities, schools, Health Centres, Lira Main Prison and the Lira Regional Referral Hospital Mental Health Unit. Divergent working methods are used such as mental health sensitization, individual/couple/ family/group psychotherapy, community dialogues, community therapy and play therapy. Also, CCVS-Uganda is involved in research and training of various stakeholders engaged in formal and informal psychosocial service delivery (e.g., social workers, teachers, community leaders and mobilizers) and cooperates in the radio programme "Healing Our Wounds" (Radio Wa). We aim to provide our services to all persons in need of mental health support irrespective of their ethnicity, religion or other orientations and beliefs.
